Chris Cogbill

Unit4-certified Principal Consultant & Solutions Architect | ERP implementations, acquisitions & cloud migrations | 10+ years across Europe & North America | 11 of 12 bids won | Cambridge Physics graduate

Experience

SystemsAccountants

Jul 2025

Principal Consultant - Unit4 — *London*

As Principal Consultant I take ERP implementation, migration and improvement projects from sales and solution demos through to delivery, winning 11 of 12 bids. I mentor junior consultants and manage contractors on our larger engagements.

Key Projects:

- **Care UK:** Began with Care UK's acquisition by Welltower (a US real-estate investment trust) and five care-home acquisition projects migrated into Unit4. The client later returned, having first trialled a cheaper Unit4 partner, and I have since led the well-publicised **Danforth** and **Aria Care** acquisitions (~100 care homes across 50+ legal entities), helping grow Care UK into one of the two largest care-home providers in the UK. All delivered to tight deadlines.
- **City of Medicine Hat:** Bid for and ran an intensive Unit4 health check whose report has shaped an ongoing improvement programme, now into its second year, including rewriting report templates to be cloud-compliant using AI.
- **Triton:** Bid for and delivered an integration between an internally developed AP system and Unit4's general ledger, using AI to generate the integration scripts.

Dec 2022

Senior Consultant - Unit4 — *London*

Moved back to London after 5 years in the US, continuing as a Unit4 specialist with a mix of US, Canadian and UK clients.

Key Projects:

- **Havas UK:** Implemented utilisation and client profitability reporting in Unit4, plus a REST API interface to Power BI. Leveraged existing relationships from US-based Havas work.
- **Medical Teams International:** Rescued a failing P2P (purchasing) implementation that couldn't raise a single purchase order when I took over, delivering working purchasing with workflow automation. Later re-engaged for financial reporting advice.
- **Oanda:** Full planner and commitment accounting implementation delivered from scoping to production in under a month.
- **College of Medicine Hat:** Delivered projects to implement the Unit4 modules for Fixed Assets and T4A (Canadian tax documents).

- SQL (MS SQL, PostgreSQL)
- Node.js + Express
- REST APIs
- Python
- Claude Code

Front-end Development

- HTML, CSS, JavaScript
- React.js
- Git / Version Control

Mar 2017

Senior Consultant - Unit4 *Chicago*

I joined SystemsAccountants' US operation (then 6 employees) and helped grow it to 100+ staff across three offices. The work with Havas made them SA's biggest global client by total revenue.

Key Projects:

- **Havas Worldwide:** Helped migrate ~60 agencies onto Unit4 ERP over 5 years. Predominantly worked across the New York, Boston and Chicago offices. Led Planning, Budgeting and FP&A reporting setup.
- **Havas Media:** Won and led SystemsAccountants' first large-scale implementation. Headed the consulting team across two phases including AP and Fixed Assets (live since April 2021).
- Also delivered projects for the University of Toledo, The Reinvestment Fund and Hycite, and authored a successful Unit4 upgrade bid for Oanda.

Cogs Technology Solutions

Oct 2015

Independent Consultant *London*

I set up my own business providing consulting services and contracted predominantly to the UK Atomic Energy Authority (UKAEA) as well as to Methods (my previous employer).

Key Projects:

- **UKAEA:** Full-cycle Unit4 ERP implementation (HR and finance). Progressed from lead financials consultant to solution architect, delivering on time. Set up and trained their support team before departing.

Methods Consulting

Dec 2014

Senior Consultant

Apr 2014

Consultant

Jun 2013

Junior Consultant

I joined Methods as a graduate and was promoted twice in 18 months to become the youngest senior consultant across the group.

I delivered Unit4 implementations and upgrades for clients including West Suffolk Shared Services, Middlesbrough Council, and Macmillan Cancer Support.

Prior to focussing on ERP, I was part of the team that did the first Salesforce implementation into local government (London Borough of Hounslow).

Education

University of Cambridge

2009 – 2012

BA (Hons) Natural Sciences

Physical Natural Sciences — Grade 2:1
